Philadelphia subway map

The 3 lines and all 70 stations of the network

PHILADELPHIA METRO
Independent guide to the Philadelphia metro

B B · Broad Street Line · Fern Rock Transit Center – NRG Station

L L · Market–Frankford Line · 69th Street Transit Center – Frankford Transit Center

M M · Norristown High Speed Line · 69th Street Transit Center – Norristown Transit Center

Drawn by philadelphiametro.org from the published open GTFS schedule data.
All 70 stations are on the map, in the real order of each line. Schedule data valid through 20 February 2027.
The drawing is schematic: the distances are not those of the map, but the order of the stations and the interchanges are.
The M (Norristown High Speed Line) is an interurban railway that leaves the city for the suburban counties, not an urban metro line.
